True or False Answers

- 1) True—around 615,000 miles of water!
- 2) True—another fact: seahorses can move one eye at a time.
- 3) False—a redfish has a large spot on its tail.
- 4) False— although the mahi mahi is called the dolphin fish, it is NOT a dolphin!
- 5) False— The female swordfish grows larger than the male—nearly all specimens over 330 lbs, are female.
- 6) True—known as the garbage can of the sea, they eat everything from fish to squid to trash—even tires & license plates!
- 7) True— they can also grow up to 25 feet in length.
- 8) False—The blue marlin is the largest. They are among the fastest fish in the ocean and use their spears to slash through schools of fish.
- 9) False—The tarpon is called the silver king because of its large shiny silver skin.
- 10) False— NEVER DO THIS! Barracuda attack shiny flashing objects that look like they small fish they like!

Score:

0-3 correct: you must have learned your ocean facts from watching Spongebob Squarepants!

4-7 correct: good job, but stay in fish school.

8-10 correct: AWESOME—you should become a lifetime CCA member!
